track faculty position in Information Systems at the Assistant or Associate Professor level with an expected start date of September 2024. Of particular interest are applicants with research portfolios focused on online communities, the future of work, or artificial intelligence.

Successful candidates will possess a PhD in Information Systems, Management, Computer Science, Management Science, or a related discipline. The degree must be completed before September 2024. Candidates are expected to conduct research and publish in top journals as well as advise PhD students. Candidates are expected to teach in our graduate and undergraduate programs in Information Systems. Appointments can be made at the assistant or associate rank, commensurate with the individual's record and experience. The university offers a competitive teaching load and excellent support for faculty research.

Information Systems faculty at the school are active in research involving the effects of artificial intelligence on work, the effects of social media, design science, social network analysis, collective intelligence, and process innovation. Candidates are expected to complement and enhance the research activities of the school with their own scholarly activities, advise Ph.D. students, and are expected to publish in top journals of their field. Successful candidates are expected to teach in our graduate and undergraduate programs in Information Systems. The university offers a competitive teaching load and excellent support for faculty research.

Stevens' offers Information Systems degrees at the graduate, undergraduate and PhD level, and its Information Systems program is ranked 18th by US News and World Report. The graduate program in Information Systems is the largest program in the School of Business and consists of courses on emerging information technologies, business process innovation, IT strategy and IS architectures as well as concentrations in business intelligence and analytics, process and service innovation, and project management. Successful candidates are expected to participate in curricular development, student advisement and the program's robust series of public events besides the primary role of pursuing a strong research agenda.

Required education and experience:

Successful candidates will possess a Ph.D., or foreign equivalent, in Information Systems, Management, Computer Science, Management Science, or a related discipline. The degree must be completed before September 2024.

Additional eligibility requirements

Candidates should express their interest in being considered by emailing Josa Balisi (jbalisi@stevens.edu) with the subject title TT Information Systems Application. Please include in your email a letter of application, CV, research statement, teaching statement, job market paper and if possible, teaching evaluations. Applications without these documents will be considered incomplete and will not be reviewed. In a later stage, 3 letters of recommendation will be required.

Applications and nominations will be accepted until the position is filled. Stevens Institute of Technology appreciates all applications but can only respond to qualified candidates.

About the School /Division

The School of Business is AACSB accredited and is ranked 53rd in the country by U.S. News & World Report. The School offers three PhD programs, two MBAs, eleven Master's degrees, and eight undergraduate majors. These offerings, many of which have been ranked among the best in the country, are across a wide range of business disciplines and share a common emphasis on leveraging technology, analytics, and leadership for business success. For more information, visit www.stevens.edu/business.

Stevens Institute of Technology is a private institution serving over eight thousand students. It is located directly across the Hudson River from New York City, in Hoboken, NJ. Hoboken is a vibrant, walkable community and has been ranked among the twelve best college towns in the country by Princeton Review. Applications and nominations will be accepted until the position is filled. Stevens Institute of Technology appreciates all applications but can only respond to qualified candidates.
