Job Description

The position will focus primarily on business economics instruction at the MBA, Masters and undergraduate level. This instructor is expected to teach an introductory course for a large number of undergraduate business students and other economics/finance courses. Teaching will involve both digital access and traditional classroom delivery.

We expect that candidates have demonstrated experience in teaching in various formats, including digital, and are committed to experiential learning as well as to the inclusion of modern analytical tools in their classes.

The UB School of Management is recognized for its emphasis on real-world learning, community and

economic impact, and the global perspective of its faculty, students and alumni. For more information about the UB School of Management, visit mgt.buffalo.edu.

Impactful research, academic merit, transformative scholar experiences, and broad-ranging service to local, state, national, and international populations describe UB's calling as a leading research-intensive public university. UB was founded in 1846 as a private medical college located in downtown Buffalo and joined SUNY in 1962. Today, UB is the largest and most comprehensive public research university in the SUNY system and a prominent, global center for academic excellence. In 1990, UB was the first public university in the Northeast to be welcomed into the Association of American Universities (AAU), joining North America's other leading research universities.

UB is located in Buffalo, NY, which is located on Lake Erie, close to Niagara Falls, and a short distance from Toronto and other attractions, and is a city that features world-class art galleries and museums (American Style ranked Buffalo as the #1 arts destination for all mid-size cities), impressive architecture, and a wonderful series of parks and outdoor recreation areas. Buffalo is close to two significant wine growing regions-Niagara Escarpment and the Finger Lakes region. In addition, the Adirondack Mountains are half-a-day's drive from Buffalo. Rich in natural resources and beauty, the Buffalo Niagara area is a four-season region that offers the best for seasonal sports enthusiasts. These features along with the economic and cultural revitalization being experienced by the city and surrounding region and its affordability, make the region highly attractive as evidenced by Buffalo's top rankings in multiple categories as a place to live (e.g., <http://www.forbes.com/sites/erincarlyle/2014/03/11/americas-most-affordable-cities/>).

University at Buffalo is an affirmative action/equal opportunity employer and, in keeping with our commitment, welcomes all to apply including veterans and individuals with disabilities.
