experience to teach undergraduate and graduate courses.

The discipline experience could be in any areas related to the supply chain management profession (examples may include, but are not limited to, production and operations management, supply chain management, purchasing, logistics, new product development, global supply chain, technology and consulting).

Duties will include teaching undergraduate and graduate courses in multiple areas of operations management, logistics, or purchasing; developing curriculum and courses; serving the department, university and community; and assisting with accreditation and re-accreditation efforts.

An additional responsibility will include connecting students and faculty to relevant industry projects and engagements. We believe there is tremendous growth potential in the DFW area for the University of North Texas.

Rank assignment (Clinical Associate Professor, Clinical Full Professor) will be based on experience and education. Salary is commensurate with AACSB standards for an Assistant professor in Business.

The University of North Texas System and its component institutions are committed to equal opportunity and comply with all applicable federal and state laws regarding nondiscrimination and affirmative action. The University of North Texas System and its component institutions do not discriminate on the basis of race, color, sex, sexual orientation, gender identity, gender expression, religion, national origin, age, disability, genetic information, or veteran status in its application and admission processes, educational programs and activities, and employment practices. The successful candidate will be qualified for appointment at the rank of Clinical Professor (Associate or Full) and possess a terminal degree (Ph.D., DBA or equivalent) in Business (such as Operations Management, Purchasing, Logistics, Supply Chain Management, or Technology), Inter-Organizational Psychology (to include Organizational Behavior and Leadership), Industrial Engineering or a degree in a closely-related field. We will also consider Non-U.S. terminal degrees (Ph.D., DBA or equivalent).

The successful candidate will also have significant professional, technical, or managerial experience in a discipline related to operations management, logistics, purchasing, global business, engineering or supply chain management. Significant experience is interpreted as at least five years of duties and responsibilities. Examples of effective communication (both written and oral), team building and collegiality will be evaluated during the interview process.
