Job Description

The Center for Cyber Security supports the executive staff of the School of Computer Science in cooperation with the School of Criminal Justice and Public Administration in providing a multidimensional and multifaceted platform of academic, professional and policy development. The Center aims to provide academic and research leadership in cybersecurity-related disciplines, as well as community outreach. The Managing Assistant Director manages the day-to-day operations of the Center and will foster public and private partnerships in order to promote the Center as a resource for higher education, government, legislative and industry professionals in the field of cybersecurity, all with the mission to protect and improve cybersecurity technology and infrastructure.

Qualifications: Bachelor's degree from an accredited college and two years of professional experience in a related field is required. An advanced degree in Information Technology, Engineering or a related field from an accredited institution is preferred. A security-related certification, such as CISSP, CISM
