- Where international collaboration is pursued
- Work in a friendly and professional team environment
- Work with world leaders in their discipline

If you're after a rewarding career, Monash University can help make it happen. With leading academics and world-class resources, combined with a ranking in the top 100 universities worldwide, we offer all you need to build a brighter future.

### The Opportunity

The Department of Econometrics and Business Statistics, one of seven academic departments in the Monash Business School, comprises approximately 50 academics with particular strengths in data visualisation and analytics, statistics, time series analysis, forecasting, actuarial science, econometric theory and methods, and applied econometrics.

In the Excellence in Research for Australia assessment conducted by the Australian Research Council in 2018, Monash University received a rank of 5, the highest possible rank, in Econometrics. The Monash Business School is also in the top 10% of institutions in Econometrics as ranked by IDEAS (a Research Papers in Economics service maintained by the Federal Reserve Bank of St. Louis, USA), meaning that the Department appears among the best institutions in the world.

Actuarial Studies sits within the Department of Econometrics and Business Statistics and is a fully accredited program with the Actuaries Institute of Australia. The department manages programs both at undergraduate and masters level and has a high level of engagement with industry practitioners as well as national and international research activities.

The department is seeking to appoint a suitably qualified and enthusiastic Lecturer or Senior Lecturer to join our highly motivated team.

As a candidate for the Lecturer position, you will have:

- A PhD, or near complete PhD in actuarial science, insurance mathematics, quantitative finance or a closely-related discipline
- Strong research background with commitment to publish in top-tier journals
- Some experience in teaching in a tertiary environment and
- Possess a high level of interpersonal skills.
- Post PhD applicants are preferred. Applicants with papers accepted for publication or under second review at top-tier journals are strongly encouraged to apply.

## Lecturer / Senior Lecturer in Actuarial Studies Monash University

Downloaded On: Aug. 25, 2019 7:22am

Posted Jun. 4, 2019, set to expire Oct. 5, 2019

As a candidate for the Senior Lecturer position, you will have:

- A PhD in actuarial science, insurance mathematics, quantitative finance or a closely-related discipline
- Evidence of high quality scholarly activity, such as publications in best quality journals in this field
- A demonstrated ongoing commitment to research preferably in actuarial science, insurance mathematics, or quantitative finance
- An ability to work within inter-disciplinary teams and build networks with external organisations including key industry partners
- A proven commitment to high quality teaching, including evidence of leadership in teaching

In addition to Monash University's attractive remuneration and benefits, the business school provides generous research support and access to a range of competitive grants and interdisciplinary research opportunities, as well as support for development and innovation in education and curriculum design.

These are full-time positions; however, flexible working arrangements may be negotiated.

At Monash University, we are committed to being a Child Safe organisation. This position at the University will require the incumbent to hold a valid Working with Children Check.

All applicants must supply all of the below documents:

- CV (that includes the names of three referees and contact details)
- Key Selection Criteria responses
- A Sample Research Paper
