science / business analytics (DS/MS/BA) with the proven ability and experience to teach mostly undergraduate DS/MS/BA courses. The ideal candidate will have a proven ability to also teach graduate courses, develop courses, and conduct quality research in those or closely related fields independently and with faculty colleagues and doctoral students, advise and mentor students, and render service to the department, college, university, and profession commensurate with their rank.

The University of North Texas System and its component institutions are committed to equal opportunity and comply with all applicable federal and state laws regarding nondiscrimination and affirmative action. The University of North Texas System and its component institutions do not discriminate on the basis of race, color, sex, sexual orientation, gender identity, gender expression, religion, national origin, age, disability, genetic information, or veteran status in its application and admission processes, educational programs and activities, and employment practices. The successful candidate will have a PhD in Business Analytics / Decision Sciences / Management Science (BA/DS/MS) or a closely related field and have experience teaching undergraduate BA/DS/MS courses.
