granted the most important international quality accreditations in its field. It aspires to be among the best business schools in Europe in terms of research excellence, a portfolio of pioneering B.Sc., M.Sc., Ph.D., and executive education programs, and contributions to society.

The Department of Management Studies invites applications for
POSTDOCTORAL RESEARCHER IN SUSTAINABILITY IN BUSINESS (2 years)

We are now looking a junior academic interested in research and teaching in the domain of sustainable business. The position is within the Organizations and Management discipline in the [\[url=http://management.aalto.fi\]](http://management.aalto.fi)Department of Management Studies of Aalto University Business School.

About us

The department hosts a strong [\[url=https://www.aalto.fi/en/department-of-management-studies/sustainability-in-business-sub\]](https://www.aalto.fi/en/department-of-management-studies/sustainability-in-business-sub)Sustainability in Business research group. The group is specialized in innovations towards sustainability, including circular economy, governance and institutions, and sustainability transitions.. In addition to active publishing, the group is active in collaboration with companies and other stakeholders as well as creating societal impact. The department also has more general research groups on organization and management studies. Moreover, the department has a lively, international research community with numerous doctoral students and post-doctoral researchers from several countries. The working language at the department is English.

Department of Management Studies has existing research on sustainability innovation, business models for sustainability, alternative economies, and organizing for sustainability. This work offers a basis for rethinking how businesses operate, how new actors and individuals can make contributions to sustainability and how sustainability debates unfold across societies and different global contexts.

The position is related to an inter-disciplinary project focusing on sustainable and circular innovation related to bioproducts (e.g. packaging). Thus, candidates with expertise on circular economy, sustainable business models, sustainable innovation and/or innovation ecosystems are preferred.

Our expectations

The postdoctoral position is intended to allow the chosen researcher to pursue their own research agenda and to develop personal competencies. We expect the candidate to conduct high quality research and aim to publish in the leading international journals. The position is associated with a low teaching load: teaching one course per year or equivalent contribution. In addition, the position includes master's thesis supervision and an opportunity to be involved in Ph.D. training.

We look for scholars who have completed their Ph.D. within the last four years, or are about to complete it. The Ph.D. is expected to be in a relevant field of study (such as management studies, social sciences, organizations and sustainability), but applicants from other areas may also be considered. The applicants should have demonstrated the ability to teach competently and to publish internationally. The position requires fluent skills in the English language. Finnish and other language skills are a merit.

Postdoctoral researchers are required to be in residence for the duration of the appointment, as we are looking for a member in our lively, welcoming departmental community. The appointment can begin October 1, 2024, but the dates of the employment relationship can be negotiated. The position will be two years with a potential extension into a third year.

We offer *

We offer you a full-time position for 2 *

Thriving sustainability research community *

Stimulating research and working environment in one of the leading international universities *

Possibility to pursue cutting-edge research with a wide community of sustainability scholars and opportunities to participate in ground-breaking multi-disciplinary sustainability research. *

About Finland

Finland is a great place for living, both with or without family: it is a safe, politically stable and well-organized Nordic society which is consistently ranked highly in quality-of-life studies. Helsinki has been praised as one of the world's most livable cities, e.g. by Monocle Magazine and in the Economist Intelligence Unit livability rankings. The World Happiness Report 2020 ranked Helsinki as the city with the highest well-being in the world. For more information about living in Finland:
