Advising and Mentorship:

1. Advise students on academic and career pathways and mentor students in research and projects.
2. Maintain student records and monitor progress and performance.

Research and Publication:

1. Conduct and publish high-quality research in business intelligence applications, machine learning, AI, and data analysis.
2. Pursue research funding through governmental, industry, and organizational grants and partnerships.

Service and Engagement:

1. Serve on departmental, college, and university committees and initiatives.
2. Foster student success through academic support services and co-curricular engagement.
3. Participate in professional development activities to continually advance knowledge and teaching practices.
4. Undertake community outreach, industry engagement, and promotional activities for the program and department.

Collaborate with faculty colleagues on interdisciplinary initiatives that enhance student learning.
