Job Description

Job Details

Description
As a part of a diverse community of faculty and staff who represent many faith systems and worldviews, Marian University seeks an Assistant Professor of Business Analytics to promote our Catholic Franciscan mission and identity by teaching business courses. The School of Business at Marian University, Indianapolis is a collaborative academic community committed to fostering student engagement, problem solving, and communication. The school offers degrees in accounting, business analytics, finance, management, marketing, and logistics and supply chain management in order to develop transformative leaders for service to the world.

Essential Duties and Responsibilities:

* Actively engage the Catholic Franciscan mission and identity of Marian University by modeling the Franciscan Sponsorship Values and honoring the legacy of the founding congregation through transformative education, unity in diversity, leadership through service, integrating faith and life, and institutional policies.
* A teaching load of 12 credit hours per semester at the undergraduate level during the 9-month academic year.
* Student advising with occasional summer advising expected.
* Regular curriculum development/enhancement activities.
* Membership on university and departmental committees.
* Ongoing professional development activities.

Due to our experiential and integrative approach to undergraduate business education, this position requires the ability to:

* Manage student led teams.
* Create and foster classroom engagements between students and external business professionals.
* Link area of expertise to other areas of business.
* Help students develop key skills related to communication, teamwork, and problem-solving.
* Facilitate, mentor, and coach students.
* Assist students in developing career plans.
* Connect students with internship and employment opportunities.

Required Qualifications:

* Ideal candidate has a graduate degree, certifications, work experience, or teaching experience in Business Analytics, or a related field that uses Analytics.
* Familiarity with a of variety of analytical tools. For example, Tableau, Power BI, Looker, Python, SQL. AI, Google Cloud Services or other cloud-based platforms.
* The ability to teach Business Analytics in an applied format.
* A strong desire to stay current within this rapidly evolving field.
* Excellent communication and collaboration skills.
* Commitment to collegiality and working in a team environment.

Review of applications will begin immediately and continue until the position is filled.
