Job Description

The School of Business at Stevens Institute of Technology invites applications for a non-tenure track full-time faculty position as an Industry Professor. Appointments can be made at the Assistant, Associate or Full Professor ranks, commensurate with the individual's record and experience. The principal focus of this position is instruction in data analytics, data science, information systems, and artificial intelligence courses. The expected start date for the position is September 2025. This position is contingent upon final budget approval.

Stevens Institute of Technology offers a Master of Science in Business Intelligence & Analytics (BI&A) and a Master of Science in Information Systems (MSIS). Current BI&A stream offers courses that include data management, financial decision making, optimization and process analytics, multivariate statistics, experimental designs, machine learning, cognitive computing, big data technologies, marketing analytics, network analytics, and supply chain analytics. In the Information System stream, Data Management, Process Innovation, Digital Innovation, IT Strategy, Machine Learning and Analytics, project management, cybersecurity, and others.

We seek individuals with significant academic and/or professional experience. A doctoral degree is preferred, but industry experience in lieu of a doctoral degree will be considered. The successful candidate will be expected to primarily teach graduate and undergraduate courses, and support curricular development, student advising and Business school and University wide committee assignments.

The School of Business is AACSB accredited and offers three PhD programs, two MBAs, eleven master's degrees, and eight undergraduate majors. These offerings, many of which have been ranked among the best in the country, are across a wide range of business disciplines and share a common emphasis on leveraging technology, analytics, and leadership for business success. For more information, visit www.stevens.edu/business.

Stevens Institute of Technology is a private institution serving over eight thousand students. It is located directly across the Hudson River from New York City, in Hoboken, NJ. Hoboken is a vibrant, walkable community and has been ranked among the twelve best college towns in the country by Princeton Review.

At the Stevens Institute of Technology, we value diversity and seeks candidates who can contribute to a welcoming climate for students, faculty and staff of all races and genders. We are an NSF ADVANCE institution committed to equitable practices and policies and strongly encourage applications from women and minority candidates as well as veterans and individuals with disabilities.
