with expertise in supervising PhD research. This role is central to advancing our Doctor of Philosophy (PhD) in Quality Management program, which integrates cutting-edge operational strategies with quality management principles.

### Main roles & responsibilities

The successful candidate will drive academic and research excellence through:

- **Teaching:** Delivering graduate-level courses in:
  - *Quantitative Research Methods and Statistics*
  - *Service Quality and Excellence*
  - *Implementation and Applications of Quality Management*
  - *Seminar in Quality Management*
- **Curriculum Development:** Updating course content to reflect trends such as AI-driven operations, and Quality Management among others.
- **Research:** Publishing in high-impact journals (Scopus/WoS-indexed) and show ability to obtain research funding
- **Mentorship:** Supervising PhD candidates through all stages of dissertation work.
- **Service:** Contribute to program accreditation efforts, fostering industry partnerships, and enhancing program visibility through academic and professional networks.

### Required qualification & skills

- **Education:** PhD in Operational Management, Quality Management, or a related field from an AACSB-accredited institution.
- **Teaching Expertise:** Proven experience teaching the specified courses (*Quantitative Research Methods and Statistics, Service Quality and Excellence, Implementation and Applications of Quality Management, Seminar in Quality Management*) at the graduate level. Experience with online/hybrid instruction is preferred.
- **Research Excellence:** Strong record publication record.
- **PhD Supervision:** Demonstrated success in guiding doctoral dissertations, particularly in operational or quality management topics.

### Rank and Appointment Criteria

- **Associate Professor:** Minimum 5 years of post-PhD academic experience, with evidence of teaching excellence, impactful research, and PhD mentorship.
- **Full Professor:** Minimum 10 years of experience, distinguished leadership in research (e.g., major grants, editorial roles), and a sustained record of doctoral supervision.

### About the PhD Program

The **PhD in Quality Management** prepares scholars to address national and global challenges through a dual focus on operational efficiency and quality excellence. Graduates lead in academia, industry, and consulting roles, equipped with expertise in AI, data analytics, systems design, and sustainable practices.
