and behavioral macroeconomics. The role involves data analysis, literature reviews, policy evaluation, and academic writing. The candidate will work with faculty and research teams to produce high-quality research outputs.

### **Key Responsibilities:**

- Conduct data collection, cleaning, and analysis using Stata, Python, and other statistical tools.
- Perform literature reviews and synthesize academic findings to support research projects.
- Assist in the preparation of research papers, policy reports, and presentations.
- Support the design and implementation of surveys and experiments.
- Assist in managing and analyzing large datasets related to household finance and behavioral macroeconomics, including insurance, and households' economic expectations
- Support research projects with quantitative models and econometric methods.
- Contribute to research outputs, including journal publications and policy reports

### **Job Requirements:**

- Bachelor's degree in Economics, Finance, Statistics or related fields.
- Proficiency in Stata and Python.
-
