Position description

The Haas School of Business at the University of California, Berkeley is seeking highly motivated individuals for the position of Junior or Assistant Specialist for the academic year 2025-2026. This is a one-year position with the possibility of renewal for a second year. The end date is dependent on the start date, which may vary, but will likely be July 2025.

The Center for Healthcare Marketplace Innovation (CHMI) is accelerating the development of economic and computational solutions that will transform the delivery of healthcare. We combine cutting-edge research on decision-making and economics with machine learning and AI research to make informed interventions and drive change. The candidates would work with Haas Economic Analysis & Policy group Professor Jonathan Kolstad and Economics Assistant Professor Nano Barahona.

The positions are to assist in economic and computational research in health care and education including topics of machine learning, causal inference, labor and personnel, provider decision-making,

and productivity.

The position will assist with data processing and analysis, survey design, simulation techniques, literature reviews, and presentations, all responsibilities that serve as excellent preparation for Ph.D. programs in economics. The research assistant will work with professors Handel, Kolstad, and Barahona, along with their co-authors, on research projects in health economics, education economics, and industrial organization.

General Duties:

- Assist in designing and interpreting analyses, involving knowledge and experience in reduced form (difference-in-difference, regression discontinuity, instrumental variables) and structural econometrics (method of moments, maximum likelihood, dynamic programming) and methods of causal inference. (20% time)
- Write computer code to maintain data and implement analyses. (20% time)
- Maintain accurate documentation of work. (20% time)
- Clean data, identify problems with data or coding, and resolve technical problems. (10% time)
- Assist in preparation for research manuscripts and project reports and generate tables and graphs for publications. (10% time)
- Monitor datasets and statistical deliverables for quality assurance. (10% time)
- Collaborate with research team and other experts in the field regarding ongoing analyses of the project. (10% time)

Qualifications

Basic qualifications (required at time of application)

The minimum qualification to be enrolled in a Bachelor's Degree, or equivalent international degree program at time of application.

Additional qualifications (required at time of start)

A Bachelor's Degree, or equivalent international degree at the start of appointment.

Preferred qualifications

- A Bachelor's degree or in a quantitative field, including Computer Science, Engineering, Mathematics, Economics or related and theoretical and practical application of a body of highly specialized knowledge in the area of Economics.
- An advanced degree and/or prior experience in writing for a graduate-level audience in
