Job Description

Aalto University is where science and art meet technology and business. We shape a sustainable future by making research breakthroughs in and across our disciplines, sparking the game changers of tomorrow and creating novel solutions to major global challenges. Our community is made up of 13 000 students, 400 professors and close to 4 500 other faculty and staff working on our dynamic campus in Espoo, Greater Helsinki, Finland. Diversity is part of who we are, and we actively work to ensure our community's diversity and inclusiveness. This is why we warmly encourage qualified candidates from all backgrounds to join our community.

[url=https://www.aalto.fi/en/school-of-business]The Aalto University School of Business is the leading business school in Finland. The School belongs to the select group of business schools that have been granted the most important international quality accreditations in its field. It aspires to be among the best business schools in Europe in terms of research excellence, a portfolio of pioneering B.Sc., M.Sc.,

Ph.D., and executive education programs, and contributions to society.

The Department of Management Studies invites applications for

One Post-doctoral Researcher (fixed term - one year)

We are seeking a post-doctoral researcher for one year (100%) to join our research project on future landmark buildings (FUTULAND). This groundbreaking interdisciplinary research project is set to redefine our understanding of landmark buildings and their evolving significance. By pioneering a novel theoretical framework and advancing innovative research methods, the project aims to profoundly influence the development of future landmarks. Our empirical research focuses on corporate headquarters and museums. One of our current case studies is the upcoming Museum of Architecture and Design in Helsinki, which aims to “redesign the world” and is scheduled to open in 2030. Key focus areas of research include physical and digital place-making, leadership in place-making, and future-oriented methodologies. For more information, visit [\[url=https://admuseo.fi/en/museum-2030/\]](https://admuseo.fi/en/museum-2030/).

Our expectations

The post-doctoral researcher will play a pivotal role in revising the new proposal for the upcoming application rounds and initiating data collection efforts. They will work closely with the project team to design suitable research methods and manage other initial stages of data collection.

We seek scholars who have completed their doctoral studies in a relevant field (e.g. management studies, international business, social sciences, architecture, design). The ideal candidate will possess strong qualitative research skills, a broad understanding of sustainability issues, and a keen interest in architecture and design. Applicants should demonstrate the ability to conduct independent research and publish in high-quality scholarly journals. Fluent English is required, while fluency in Finnish is a merit.

The post-doctoral researcher is required to be in residence for the duration of the appointment. The starting date of the employment relationship can be negotiated, ideally commencing October 1st 2025 or shortly after.

What we offer

This post-doctoral researcher position is a fixed-term position for one year. The expected salary is approximately 4500 €/month (income before deduction of taxes), depending on experience and qualifications. As an employer, Aalto University provides excellent learning and development opportunities as well as occupational health care services, versatile exercise services and other employee benefits.

Our vast array of professional development opportunities means that you will grow and learn, having the chance to participate actively in staff trainings and development projects based on your interests and needs.

We work in a hybrid way, and the primary workplace is Otaniemi, Espoo. The Otaniemi campus is a thriving and connected community of 100 nationalities, 13,000 students and 4,500 employees. Life at the transformed campus is vibrant and filled with amazing architecture, calming nature, and a variety of cafes, restaurants, services and good connections along the recently opened metro line.
