Job Description

CallforApplications (short version)

The PhD program in Business Administration and Management at Bocconi University is seeking applicants with exceptional academic credentials and the drive to excel at scholarly research.

Our PhD is a 4-year full-time program that offers training in a variety of disciplines related to management studies and emphasizes the skills necessary to integrate different approaches and develop coherent and cutting-edge research. We provide a collaborative, supportive and intellectually stimulating research environment for discovery and dissemination of scientific knowledge applicable to the business community. Students will develop the theoretical and methodological skills required to participate and publish at the highest standards of the international scientific community.

Our PhD program includes two curricula, Management and Marketing (students select one curriculum when they apply). Our first-year students acquire a broad set of theoretical and methodological skills relevant to various fields in management studies through a series of common compulsory courses, and attend courses specific to their curriculum, and begin developing their own research. In the second and third year, our students will attend a series of elective courses and continue developing their research work. Starting from the second year, students will more intensively research and progress their dissertations.
