scientific, academic and professional knowledge. BUiD is a non-profit organisation with a mission to provide world class scholarship, education and research that make a distinctive British contribution to supporting the aspirations of the Dubai Government to become a hub for education and research in the region.

Goals of the University

- Make a distinctive British contribution to the higher educational system in the United Arab Emirates (UAE) through the creation of a high quality research-led university.
- Develop leading-edge research capabilities in key disciplines.
- Offer the highest international competitive level of research-informed education in key modern disciplines.
- Interact with regional industry and play a leading role in stimulating a knowledge-based economy in Dubai and the Emirates.
- Provide opportunities for study and research for the purpose of gaining degrees in arts and sciences.
- Apply the systems of study and research that are used in distinguished British universities with the aim of enhancing the standard of university education in the UAE.
- Qualify and educate nationals who are scientifically and practically trained in all fields of knowledge, through advanced educational and training programmes.
- Serve the various sectors of society, especially the commercial and industrial sectors, by providing consultation, technical services and research in the various fields of science and technology and the other disciplines, which will be offered by BUiD.
- Consolidate educational, scientific and cultural links with distinguished British universities and institutions, and with other internationally distinguished universities.

Research

Research at BUiD is a constantly evolving endeavour, aimed at establishing and developing a wide array of research activities such as faculty and student contributions to high tier publications, patent technologies, original BUiD journals, specialised research centres, and research collaboration opportunities with leading UK universities. BUiD recognises that a society which creates research-based intellectual capital can be a key player in the modern world. By being a major contributor to educational, scientific, legal, business, and sociological research, BUiD plays a distinctive and collaborative role in the economy and culture of the UAE, the Middle East, and the wider world.

To establish a motivating and rewarding research environment which attracts high quality researchers.

To conduct high quality research that leads to innovation and improved performance and productivity of organisations at national, regional and international levels.

To foster a long-term relationship with industry, professional bodies, and other higher education institutions based on mutual interests and benefits.

To disseminate knowledge and promote research exchange amongst academics and practitioners.

To facilitate and support the implementation of research findings in national, regional and international organisations.

To play a leading role in identifying, planning, and conducting research agendas through close collaboration with local and national governments.

To provide both the public and private sectors with high-quality research, consultancy, and training.

To use research to engage the potential intellectual capital of the region.

Finance Programme:

Master in Finance & Risk Management (FRM)

This is a new programme that builds on the previous master of finance. The FRM prepares students for positions in the finance and financial risk management industry. It will also assist in preparing students for professional certifications such as the Financial Risk Manager or Chartered Financial Analyst (CFA). The programme's content is aligned with FRM's curriculum, which is accredited by Global Association of Risk Professionals (GARP). Its modules are: Corporate Finance; Research Methods in Finance; Derivatives and Risk Management; Investment Analysis and Portfolio Management; Financial Markets & Institutions; Financial Risk and Regulation; Economics for Business and Finance; Fintech and Technological Innovation; Blockchain and Cryptocurrencies Management

Programmes that include finance modules:

Doctor of Philosophy (PhD) in Business Management and Professional Doctorate in Business Administration (DBA)

BUID's Doctor of Philosophy (PhD) in Business Management and Professional Doctorate in Business

Administration (DBA) suit professionals in commercial, public and private sectors – it blends the latest academic thinking with practice in a wide range of organisational, business and management contexts. The programme emphasises technical and academic knowledge with the development of creativity, innovation and originality in leading change and adopting innovative solutions to business administration problems and opportunities.

Master in Business Administration (MBA)

The BUiD MBA is versatile and offers lasting benefits to all those who work in business or in the public sector and want to develop their management and leadership skills. The emphasis in the programme is on the application of knowledge to real business situations, as well as the development of leadership skills. The programme can help graduates progress their career in a wide range of business/commercial/public sector settings, which include general management, human resource management, finance, marketing and operations management.

Bachelor Degree in Business Management

BUiD's Bachelor of Science in Business Management is the leading undergraduate business degree in the UAE that follows the British model of higher education. Our research-based programme is designed to develop your critical thinking, innovation, problem solving, and general skills and competencies for the workplace. The programme is taught by experts in their field who will support you to achieve your learning objectives and maximum potential. Students will gain an excellent technical grounding for a career in business or public sector management, or for running their own business. The programme covers all the main areas of business including operations management, finance, marketing and human resource management. There is a focus on innovation and entrepreneurship throughout the programme. A variety of teaching and learning styles will be used and there will be opportunities to participate in study trips, both in the UAE, to the UK and elsewhere.

Job Description

The British University in Dubai Business School seeks to appoint an Assistant Professor or Associate Professor or Professor of Finance. The post holder will be required to supervise Master dissertations, teach at all levels, publish at an international level of excellence in Business management. In this role, the post holder will interact with the Head of Programme, Dean and other members of the faculty. In all interactions with students and colleagues, you will aim to give the best possible service and further build BUiD's reputation for excellent teaching and research. Priority will be given to applicants with good academic experience and distinguished record of publications in refereed journals/conferences.

Job purpose

The Assistant Professor /Associate Professor/professorial role is a key leadership role within the department, making a positive, significant and strategic contribution to the PhD review panel including the supervision of masters and PhD students, delivery of teaching on Business Management programmes and acting as an internal examiner.

This role is designed to manage and conduct a portfolio of research in the area of Finance and Business Management and to make significant intellectual contributions, through regular publishing in suitable journals.

In addition, the post-holder will provide leadership within the Faculty to further develop and strengthen its research culture, and to enhance its increasing national and international profile, and undertake academic, academic administrative/leadership responsibilities as appropriate.

Other duties and responsibilities

1. Governance

Contribute to policies review, development, and ensure its systematic deployment within all areas throughout the faculty in order to ensure compliance, accountability, and efficiency.

2. Faculty operations and growth

Provide ongoing creative and innovative leadership to the faculty and ensure the effective and efficient operation and that highest quality standards are met.

Provide good performance under the leadership of the Head of Programme and Dean of the faculty and facilitate his work.

Design, develop, and maintain course content related to his/her own teaching (with aid of Head of Program and Dean of the faculty).

Explain issues, direct comments toward the content and learning objectives, set up discussion forum, probes for learners' responses that focus discussions on critical concepts, principles, and skills in his/her own courses.

3. Curriculum and accreditation

Enhance and grow a portfolio of innovative programs that respond to the needs of the 21st century in alignment with the university and country strategic directions.

Seek and maintain local and international accreditation for all programs and offerings of the faculty in collaboration with Head of Programme, and Dean of the faculty.

4. Research and Teaching

Foster a culture of research and environment within the faculty that encourage scholarly research activities and application for research grants among both faculty and learners in coordination with the Head of Programme and Dean of the faculty.

Teach the relevant business management modules at all levels.

5. Community engagement

Explore, initiate, develop and sustain a range of affiliations and partnerships with industry, government, professional and wider community to support the university and faculty's strategic objectives, activities, and programs.

Build collaborative relationships with the learner body and other faculties of the University.

6. Other

Support key university activities and events for example attending, where required, university open days, graduation ceremonies, and confirmation and clearing including where these activities/events require attendance in the evening or on weekends.

Perform any other duties commensurate with the job grade as reasonably required from time to time.

Job application process

The required documents are a cover letter and a detailed curriculum vita (including a teaching statement, a research statement, list of courses that can be taught or were taught, and names of at least three references who would be willing to write letters of recommendation). The closing date for the application is on Monday 17 November 2025. Only shortlisted candidates will be contacted.
